

Declaration of Sanctuary and Request for Protection

To Whom It May Concern at the Medical Facility and Federal Review Authorities:

This declaration is submitted by Jonathan Daniel Clements, a credentialed minister of the Universal Life Church, ordained ecclesiastical authority, cybersecurity-certified whistleblower, published author with international distribution, and founder of both the Ecclesiastical Sovereign Private Trust of Humanity (ECC-TRUST-JDC-005) and multiple advanced technological systems (including AMK, QMM, and Asmetera). I request sanctuary and protective evaluation due to verified and ongoing threats against my life, liberty, and well-being.

I. Legal and Ecclesiastical Standing

The ECC-TRUST-JDC-005, lodged in multiple court systems including the Greenwood District Court, was fully accepted and stamped into record, including full receipt by the clerk and acknowledgement of documents within active legal cases. Attempts by court agents to retroactively deny or obscure this are unlawful, especially given notarized acceptance and court seals. The trust operates outside the scope of 501(c)(3) and under Lex Divina, Canon Law, and foundational spiritual law recognized internationally.

II. Patterns of Harassment and Legal Violations

Following lawful public declarations and whistleblower activity—both technological and ecclesiastical—I have faced multiple verified incidents of unlawful surveillance, physical intimidation, repeated traffic citations without cause, digital censorship, property damage, and threats against family members. Law enforcement has failed to protect and instead participated in targeting behavior including falsified warrants, jurisdictional manipulation, and unlawful court actions (e.g., a judge scribbling out valid stamps and tearing out trust documents related to their own involvement).

III. Health Grounds for Sanctuary

Despite severe and ongoing stress, I remain of sound mind, fully coherent, and capable of producing globally recognized work. I have suffered from encephalitis in the past, and I voluntarily seek mental health evaluation to

demonstrate my stability and earnestness in pursuing lawful, peaceful remedy. I am under credible, ongoing threat.

IV. Request for Sanctuary and Federal Protection

I hereby request sanctuary under the laws of the United States and international human rights protections, including the right to religious freedom, the right to be free from targeted retaliation, and protections afforded to whistleblowers under the Whistleblower Protection Act and international conventions. I further request evaluation for protective custody due to immediate threat and potential reprisal from state-level actors who have already violated state, federal, and ecclesiastical law.

V. Attached Documentation

Included with this declaration are notarized trust documents, scanned court receipts, evidence of stamps and lodgment, traffic citations, records of federal contact, screenshots of online threats, and proof of technological and authorship credentials. Two full binders of evidence are available upon request and were shown in public and legal forums.

Respectfully submitted,

Jonathan Daniel Clements
